- — Or such higher rate of duty as the Minister may in any case decide.
- “ — The use of this sign in the Preferential Tariff duty column indicates that the duties payable under the Normal Tariff apply.

A number without any qualification in either the Normal Tariff or Preferential Tariff duty columns signifies that an ad valorem duty applies at the percentage rate indicated by the number.

A month and year, eg, 7/2009, shown against a duty rate indicates that as from the first day of that month the corresponding rate of duty applies.

The rate of duty of Free, appearing by itself in the Preferential Tariff duty column, means that the goods (being the produce or manufacture of Australia, Canada, LDC, LLDC, Pac countries, Singapore, Thailand, or TPA countries) are entered free of duty.
