8 Essentially derived varieties

- (1) A plant variety (**variety B**) is **essentially derived** from another plant variety (**variety A**) if—
- (a) variety B is predominantly derived from variety A, or from a variety that is itself predominantly derived from variety A, while retaining the essential characteristics that result from the genotype or combination of genotypes of variety A; and

Part 2 Plant variety rights

Subpart 1—Nature and scope of PVR: UPOV 91

15 PVR is exclusive right to exploit protected variety

- (1) A PVR for a plant variety gives the PVR holder the exclusive right to exploit the protected variety.
- (2) To **exploit** a protected variety (**variety A**) means to undertake, or to authorise another person to undertake, 1 or more restricted acts with any of the following:
 - (a) propagating material of—
 - (i) variety A; or
 - (ii) a plant variety that is essentially derived from variety A, if variety A is not itself an essentially derived variety; or
 - (iii) a plant variety that is dependent on variety A:
 - (b) unless the PVR holder has had a reasonable opportunity to exercise their exclusive rights in relation to the propagating material described in

paragraph (a), harvested material obtained through the unauthorised use of that propagating material.

- (3) Each of the following is a **restricted act**:
- (a) production or reproduction:
 - (b) conditioning for the purpose of propagation:
 - (c) selling or offering for sale or other marketing:
 - (d) importing or exporting:
 - (e) stocking for the purpose of undertaking any other restricted activity.
- (4) However, the PVR holder's right is subject to—
- (a) the exceptions in sections 16 to 18; and
 - (b) the Commissioner's power to grant compulsory licences under section 108.

16 Exception to PVR: farm-saved seed

- (1) This section applies if a person engaged in farming activities (a **farmer**)—
- (a) lawfully obtains seed—
 - (i) of a protected variety; or
 - (ii) of a plant variety that is essentially derived from, or is dependent on, a protected variety; and
 - (b) in the course of their farming activities, grows plants from that seed; and
 - (c) harvests seed from those plants.
- (2) However, this section applies subject to any limitations or requirements in the regulations doing, without limitation, 1 or more of the following:
- (a) specifying the plant varieties to which this section does not apply:
 - (b) requiring a farmer to pay remuneration as a condition of the exercise of the rights conferred by this section:
 - (c) limiting or specifying the amount of seed to which the rights conferred by this section apply:
 - (d) making different provisions in different circumstances (for example, for farms of different sizes or for different amounts of seed).
- (3) The farmer may—
- (a) condition for the purpose of propagation of that seed the amount that they require for their future farming activities on their own farm holdings; and
 - (b) in the course of those farming activities on their own farm holdings, reproduce further seed; and
 - (c) store the seed for the purpose of the things described in paragraphs (a) and (b).

- (4) However, the farmer may do the things authorised by subsection (3) only if they comply with any requirements specified in the regulations.
- (5) In carrying out an activity permitted by this section, the farmer—
 - (a) does not require authorisation from the PVR holder; and
 - (b) does not infringe the PVR.
- (6) For the purposes of this section,—
 - (a) a farmer’s own farm holdings are land used by the farmer to grow plants whether the land is—
 - (i) owned or leased by the farmer; or
 - (ii) managed under the farmer’s own responsibility and on their own account:
 - (b) seed is **lawfully obtained** if it is obtained by the operation of this section on a previous occasion.

- (1) A person may exploit a protected variety if they do so solely for 1 or more of the following purposes:
 - (a) private and non-commercial purposes:
 - (b) experimental purposes:
 - (c) breeding other plant varieties.
- (2) In doing the things authorised by subsection (1), the person—
 - (a) does not require authorisation from the PVR holder; and
 - (b) does not infringe the PVR.

18 Exhaustion of PVR: material lawfully sold or marketed

- (1) If any protected material is sold or otherwise marketed in New Zealand with the authority of the PVR holder, another person may undertake a restricted act in relation to that protected material without the authority of the PVR holder unless that restricted act involves—
 - (a) further propagation of the variety; or
 - (b) the export of the propagating material for a purpose other than final consumption, to a non-protected place.
- (2) In this section,—

non-protected place, in relation to a plant variety, means a country that provides no protection for varieties of the genus or species to which the variety belongs

protected material means—

 - (a) propagating material of—

- (i) a protected variety; or
- (ii) a plant variety that is essentially derived from a protected variety;
or
- (iii) a plant variety that is dependent on a protected variety; or
- (b) harvested material of a variety described in paragraph (a); or
- (c) any product made directly from harvested material of a variety described in paragraph (a).

- (1) A PVR for a plant variety—
 - (a) takes effect when it is granted under section 30(3)(a); and
 - (b) remains in effect until the close of the expiry date.
- (2) However, the PVR ceases to be in effect before the expiry date if—
 - (a) it is cancelled or nullified under section 85, 86, or 90; or
 - (b) it is surrendered under section 91; or
 - (c) it is deemed to be cancelled for non-payment of a PVR renewal fee under section 92 (subject to section 100).
- (3) The **expiry date** for a PVR is the date that is,—
 - (a) if the plant variety is a woody plant or its root stock or a potato, 25 years after the PVR was granted; or
 - (b) otherwise, 20 years after the PVR was granted.

 - (i) on or after the priority date for the application that results in the PVR being granted but before the PVR is granted; or
 - (ii) while the PVR is in force.
- (2) A person (**person A**) also infringes the PVR for a protected variety (**variety 1**) with a specified denomination if person A—
 - (a) exploits another variety (**variety 2**) by referring to it as that specified denomination; and
 - (b) does not own the PVR for variety 1 and is not authorised to exploit it under a licence issued by the owner of the PVR for variety 1.
- (3) Subsection (2) does not apply if the groups of plants to which variety 1 and variety 2 belong are recognised as being distinct for the purposes of denomination.
- (4) Subsections (1) and (2) do not apply to—
 - (a) a PVR holder, unless the holder has conferred the exclusive right to exploit the protected variety on another person (the **exclusive licensee**); or
 - (b) an exclusive licensee of the PVR holder.

23 What does not constitute infringement

A person does not infringe a PVR for a protected variety by doing something that—

- (a) they are authorised to do by the PVR holder; or
- (b) they are permitted to do under sections 16 to 18; or
- (c) they are authorised to do by a compulsory licence.

24 Limitation of damages

- (1) If, in any proceedings for the infringement under section 22 of the rights of the holder of a PVR, it is proved or admitted that an infringement was committed but the defendant proves that, at the time of that infringement, the defendant

was not aware, and had no reasonable grounds for supposing, that it was an infringement, the plaintiff—

- (a) is not entitled under section 29 to any damages against the defendant in respect of that infringement; but
 - (b) is entitled instead to an account of profits in respect of that infringement.
- (2) Subsection (1) does not affect any entitlement of the holder of a PVR to any relief in respect of the infringement of that holder's rights under section 22, other than damages.

25 PVR holder's authorisation

- (1) The PVR holder for a protected variety may authorise any other person (the **licensee**) to exploit the protected variety.
- (2) The authorisation may be given subject to any conditions or limitation the PVR holder thinks fit.
- (3) If the authorisation gives the licensee exclusive rights to exploit the protected variety in New Zealand (an **exclusive licence**), the licensee (the **exclusive licensee**) has the same rights as the PVR holder to take proceedings in respect of any infringement of the PVR that—
 - (a) affects the rights of the licensee; and
 - (b) occurs after the authorisation is granted.
- (4) If an exclusive licensee brings an infringement proceeding, the PVR holder must be joined as a defendant (unless joined as a plaintiff).
- (5) A PVR holder who is joined as a defendant is not liable for costs unless that holder defends the proceedings.

26 Notice of protection

- (1) Subsections (2) and (3) apply to a breeder who—
 - (a) has acquired a PVR in respect of a plant variety; and
 - (b) sells or markets any propagating material of that variety.
- (2) The breeder must take all reasonable steps, by means of suitable labelling or other identification of that material, to inform the purchaser concerned of that right.
- (3) In determining, for the purposes of section 24, whether any person had reasonable grounds for supposing that any action was an infringement of the rights of a PVR holder, the court may take into account the extent (if any) to which that PVR holder or, as the case requires, the defendant concerned, complied with subsection (2) in respect of any propagating material in respect of which that infringement occurred.

27 Restrictions during and following expiry of PVR

Any person who at any time sells propagating material of a protected variety, or of a variety that was a protected variety until the grant made in respect of it expired, must—

- (a) use its denomination; and
- (b) not associate any trade mark, trade name, or other similar indication with that denomination unless that denomination is clearly recognisable.

Subpart 2—Infringement proceedings

28 Commencement of infringement proceedings

- (1) The holder of a PVR may bring an infringement proceeding in respect of that PVR in the court.
- (2) An infringement proceeding in relation to a plant variety cannot be commenced until after the PVR has been granted (even if the infringement occurred during the period referred to in section 22(1)(c)(i)).

29 Types of relief available for infringement

The relief that the court may grant for an infringement of a PVR includes—

- (a) an injunction; and
- (b) at the option of the plaintiff, damages or an account of profits.

Part 4

Grant of plant variety rights

Subpart 1—Grant of PVR and criteria

30 Grant of PVR

- (1) A breeder may apply to the Commissioner for a PVR for a plant variety in accordance with section 38 and (if applicable) section 39.
- (2) The Commissioner must consider the application in accordance with subparts 3 and 4 of this Part, and (if applicable) Part 5, and any procedures specified in the regulations.
- (3) After considering the application, the Commissioner must—
 - (a) grant the PVR to the applicant—
 - (i) if satisfied that the criteria for granting a PVR in section 32 are met; and
 - (ii) in a case where Part 5 applies, if the Māori Plant Varieties Committee has informed the Commissioner under section 67 that the application should proceed; but
 - (b) otherwise, refuse to grant the PVR.

- (4) If the Commissioner grants a PVR, they must—
 - (a) notify the applicant and anyone who opposed the application under section 51 (other than a person who withdrew their notice of opposition before the Commissioner decided to grant the PVR); and
 - (b) enter the PVR in the register.
- (5) If the Māori Plant Varieties Committee decides, under section 67(1)(c), that an agreed or a proposed condition must be a condition of grant of a PVR, the Commissioner must impose that condition when granting the plant variety right.
- (6) If the Commissioner refuses to grant a PVR, they must notify the applicant and anyone who opposed the application under section 51 of the decision and the reasons for it.
- (7) The Commissioner must not grant a PVR until the applicant has complied with all requirements imposed on the applicant by this Act or the regulations that are prescribed as relevant requirements for the purposes of this subsection.

31 Grant of PVR where there are 2 or more breeders

- (1) If 2 or more persons breed a plant variety jointly, those persons, or some of them, may make a joint application for the PVR for that variety.
- (2) If 2 or more persons breed a plant variety jointly, one of those persons may not apply for a PVR for that variety otherwise than jointly with, or except with the consent in writing of, each other of those persons.

32 Criteria for granting PVR

The criteria that must be met to grant a PVR for a plant variety to an eligible applicant are that—

- (a) the plant variety is all of the following:
 - (i) novel (*see* section 33):
 - (ii) distinct (*see* section 34):
 - (iii) uniform (*see* section 35):
 - (iv) stable (*see* section 36):
- (b) the name for the plant variety meets the denomination criteria in section 37.

33 Meaning of novel

- (1) A plant variety is **novel** if propagating material or harvested material for the plant variety has not been distributed—
 - (a) in New Zealand before the period beginning 12 months before the priority date; and
 - (b) in any other territory—

- (i) if the plant variety is a woody plant or its root stock or a potato, before the period beginning 6 years before the priority date:
 - (ii) otherwise, before the period beginning 4 years before the priority date.
- (2) Subsection (3) applies where, to increase the stock of a variety or for evaluation trials or tests of a variety, its owner makes arrangements under which—
 - (a) propagating material of that variety is to be sold to, or used by, some other person; and
 - (b) any unused portion of that propagating material, and all the material of any sort produced from that propagating material, is—
 - (i) to be sold to that owner by that other person; or
 - (ii) kept to become the property of the owner.
- (3) For the purposes of subsection (1), no account may be taken of any sale under that arrangement of—
 - (a) propagating material of that variety by that owner to that other person; or
 - (b) material of any sort of that variety by that other person to that owner.
- (4) For the purposes of subsection (1), a variety does not cease to be novel because of the sale at any time of—
 - (a) material to which subsection (5) applies that is not propagating material; or
 - (b) propagating material to which subsection (5) applies that is disposed of for purposes other than reproduction.
- (5) Subsection (4) applies to material that, having been produced during the breeding of a variety, or to increase the stock of a variety or for evaluation tests or trials of a variety, is not (or is no longer) required for any of those activities.
- (6) In this section, **distributed**, in relation to a variety, means sold or otherwise disposed of to another person for the purposes of exploiting the variety by, or with the consent of, the breeder.

34 Meaning of distinct

- (1) A plant variety is **distinct** if it is clearly distinguishable from any other plant variety whose existence is a matter of common knowledge at the application date.
- (2) Without limiting what is common knowledge, the existence of a plant variety (**variety K**) is taken to be **common knowledge** if—
 - (a) there is or has been an overseas breeder's right for variety K:
 - (b) an application of either of the following kinds has been made in relation to variety K:

- (i) a PVR application made under this Act or under the laws of any other country, resulting in the grant of PVR for variety K; or
- (ii) an application under this Act or the laws of any other country to enter variety K onto an official register, resulting in the entry of the variety on the official register in the relevant country.

35 Meaning of uniform

A plant variety is **uniform** if, subject to the variation that may be expected from the particular features of its propagation, it is sufficiently uniform in its relevant characteristics.

36 Meaning of stable

A plant variety is **stable** if its relevant characteristics remain unchanged after repeated propagation or, in the case of a particular cycle of propagation, at the end of each such cycle.

37 Criteria for plant variety denomination

- (1) The criteria for the denomination of a plant variety are that the denomination—
 - (a) enables the plant variety to be identified; and
 - (b) does not consist solely of figures (unless that is an established practice for designating varieties); and
 - (c) is not liable to mislead or cause confusion concerning—
 - (i) the characteristics, value, or identity of the plant variety; or
 - (ii) the name of the breeder applying for the PVR (or, if there is more than 1 applicant, the name of each breeder); and
 - (d) is different from any denomination that designates an existing plant variety of the same or a similar species in New Zealand or the territory of any other UPOV party; and
 - (e) is the same as the denomination—
 - (i) in any overseas breeder's right for the plant variety; or
 - (ii) in any overseas application in relation to the plant variety that has been made and has not yet been finally determined; and
 - (f) is not one in respect of which another person has a prior right that would prevent a person from using the denomination when they are required to do so in order to avoid infringing the PVR under section 22(2); and
 - (g) meets any other prescribed criteria.
- (2) However, subsection (1)(e) does not apply if the denomination used overseas does not meet the criteria in subsection (1)(a) to (d) and (f).
- (3) Despite subsections (1) and (2), if in the opinion of the Commissioner, the use or approval of a denomination would be likely to offend a significant section

of the community, including Māori, the Commissioner must not approve the denomination.

Subpart 2—PVR applications

38 Application for PVR

- (1) A PVR application in relation to a plant variety may be made by 1 breeder or by 2 or more breeders jointly.
- (2) The application must—
 - (a) be made in the way specified in the regulations; and
 - (b) include the following information:
 - (i) a completed technical questionnaire about the plant variety (being a questionnaire supplied to the applicant by the Commissioner);
 - (ii) the name of the breeder applying for the PVR (or each of them if there is more than 1);
 - (iii) any other information specified in the regulations; and
 - (c) be accompanied by any amount of propagating material of the candidate variety specified in the regulations (which must be sent to the Commissioner or a person nominated by the Commissioner); and
 - (d) be accompanied by any fee specified in the regulations.
- (3) The proposed denomination of the plant variety must be filed with the Commissioner by the prescribed date, and if it is not filed by that date the application lapses.
- (4) If an application is not accompanied by the prescribed fee (if any), the Commissioner may not process the application until the prescribed fee is paid.

39 Additional requirements for applications where kaitiaki relationship asserted

- (1) This section applies if—
 - (a) subpart 3 of Part 5 has come into force and a PVR application is made on or after the date on which subpart 3 of Part 5 comes into force; and
 - (b) the breeder knows that a hapū, iwi, individual of Māori descent, or Māori entity has asserted that they have a kaitiaki relationship with an indigenous plant species or a non-indigenous plant species of significance (*see* subpart 3 of Part 5).
- (2) If the breeder makes a PVR application under section 38 in relation to a plant species in respect of which a kaitiaki relationship is asserted, that application must include—
 - (a) the name of the kaitiaki referred to in subsection (1):

- (b) a summary of the engagement the breeder has conducted with the kaitiaki:
- (c) if available,—
 - (i) a copy of any assessment by the kaitiaki of the potential effects on the kaitiaki relationship if the PVR is granted:
 - (ii) a summary of—
 - (A) any consideration given by the breeder or kaitiaki, or both, to how those effects could be mitigated; and
 - (B) any agreement reached between the breeder and the kaitiaki about how those effects can be mitigated.
- (3) For the purposes of this section, **kaitiaki** includes a hapū, iwi, individual of Māori descent, or Māori entity that has asserted that they have a kaitiaki relationship with a plant species.

40 Variation of PVR application to alter denomination sought

- (1) An applicant may vary their PVR application to alter the denomination sought, by giving a variation notice to the Commissioner.
- (2) The applicant may do so at any time before the Commissioner decides the PVR application under section 30(3).
- (3) A variation notice must—
 - (a) be made in the way specified in the regulations; and
 - (b) if the PVR application was made by 2 or more persons jointly, be made by both or all of those persons jointly; and
 - (c) include any information specified in the regulations; and
 - (d) be accompanied by any fee specified in the regulations.
- (4) The Commissioner must publicly notify the variation notice and make it publicly available.

41 Withdrawal of PVR application

- (1) An applicant may withdraw their PVR application by giving a withdrawal notice to the Commissioner at any time before the Commissioner decides the PVR application under section 30(3)(a).
- (2) The Commissioner must publicly notify the withdrawal notice (unless it is received before the application is publicly notified).

Subpart 3—Dates and priority

42 Application date

The **application date** for a PVR application is the later of the following:

- (a) the date on which the PVR application is received by the Commissioner:

- (b) if, when the PVR application is received, it does not comply with section 38(2), the date on which that non-compliance is remedied.

43 **Priority date**

The **priority date** for a PVR application is the earlier of—

- (a) its application date; and
- (b) if section 44 applies, the overseas application date under that section.

44 **Priority arising from overseas application**

- (1) This section applies if—
 - (a) a person makes a PVR application in relation to a plant variety in New Zealand (the **New Zealand application**); and
 - (b) the person has previously made 1 or more overseas applications in relation to that plant variety in another country that is a UPOV party; and
 - (c) the application date for the New Zealand application (as determined under section 42) is within 12 months after the date on which the first overseas application was made; and
 - (d) the New Zealand application includes a claim for priority based on the overseas application.
- (2) The **overseas application date**, in relation to the New Zealand application, is the date on which the first overseas application referred to in subsection (1)(b) was made.
- (3) However, this section does not apply if evidence of the overseas application—
 - (a) is not included in the New Zealand application; and
 - (b) is not given to the Commissioner within 3 months after the New Zealand application is made.
- (4) In this section, **evidence of the overseas application** means a copy of the documents that constitute the overseas application (or the first overseas application if there was more than 1) certified to be a true copy by the authority with which that application was filed.

45 **Priority of PVR applications**

If 2 or more PVR applications are made in relation to the same plant variety, the PVR applications must be considered and determined in order of their priority dates, starting with the PVR application with the earliest priority date.

46 **Cancellation of PVR because of earlier overseas applications**

- (1) This section applies if,—
 - (a) after a PVR is granted to any person in respect of a variety, another person makes an application in respect of that variety; and

- (b) the Commissioner is satisfied that, if that PVR had not already been granted, that other person would, because of section 44, be entitled to a PVR in respect of that application.
- (2) If this section applies, the Commissioner must—
 - (a) cancel that PVR; and
 - (b) grant a new PVR to the person who would be entitled to it if the cancelled PVR had never been granted.

Subpart 4—Consideration of PVR application

47 PVR application to be notified and made publicly available

- (1) The Commissioner must publicly notify a PVR application, the information referred to in section 38(2) and (3), and any additional information that the Commissioner obtains on a request under section 48(2), and make it publicly available,—
 - (a) as soon as practicable after the Commissioner receives the application; or
 - (b) if, when the application is received, it does not comply with section 38(2), as soon as practicable after that non-compliance is remedied.
- (2) However, if the application contains information about kaitiaki relationships supplied by any iwi, hapū, individual of Māori descent, or Māori entity, the Commissioner must consult with the Māori Plant Varieties Committee as to whether that information should be made publicly available.
- (3) If the Māori Plant Varieties Committee recommends that the information not be disclosed, the Commissioner must not make that information publicly available.

48 Propagating material and information

- (1) The Commissioner may request the applicant for a PVR to give the Commissioner, or any person nominated by the Commissioner propagating material reasonably needed by the Commissioner, to properly consider the PVR application.
- (2) The Commissioner may request the applicant to give the Commissioner any information reasonably needed by the Commissioner to properly consider the PVR application.
- (3) The Commissioner's request must be made in writing and specify the prescribed time within which it must be complied with.
- (4) The Commissioner—
 - (a) may, subject to subsection (5), defer consideration of the PVR application until the request is complied with; and

- (b) must make any information given in response to the request publicly available.
- (5) If the applicant does not comply with the request within the prescribed time,—
 - (a) the PVR application lapses; and
 - (b) the Commissioner must publicly notify that fact.
- (6) The Commissioner may give propagating material to a person if the Commissioner considers it necessary or desirable to do so for the purposes of performing or exercising the Commissioner’s functions, powers, or duties under this Act.
- (7) If propagating material supplied under section 75(2) is given to an applicant, but the applicant uses that material in a way that contravenes the directions of the Commissioner, the Commission may decline the application.

49 Growing trials

- (1) A PVR must not be granted for a plant variety unless a growing trial has been undertaken for that variety.
- (2) The Commissioner must decide whether a growing trial is to be undertaken—
 - (a) by or on behalf of the Commissioner; or
 - (b) by or on behalf of the applicant for a PVR; or
 - (c) by an overseas testing body approved by the Commissioner; or
 - (d) by or on behalf of an authority of a State that is a member of UPOV and grants plant variety rights.
- (3) The Commissioner must inform the applicant of the Commissioner’s decision under subsection (2).
- (4) The Commissioner may give directions about the way the growing trial is to be conducted and impose conditions about the trial (for example a timetable for conducting the trial).
- (5) A growing trial must be conducted in accordance with any prescribed requirements.

50 Fees

- (1) An applicant for a PVR must pay the prescribed fee for conducting growing trials if the growing trial is to be conducted by or on behalf of the Commissioner.
- (2) An applicant for a PVR must pay the prescribed examination fee for the PVR application.
- (3) The fees payable under subsections (1) and (2) must be paid within the prescribed time after the Commissioner has requested payment.
- (4) The request must be in writing and specify the prescribed time.

- (5) If the applicant does not pay the prescribed growing trial or examination fees within the prescribed time,—
- (a) the PVR application lapses; and
 - (b) the Commissioner must publicly notify that fact.

51 Opposition to grant of PVR

- (1) A person may oppose the grant of a PVR for a plant variety on the ground that 1 or more of the criteria in section 32(a) and (b) are not met, by giving a notice of opposition.
- (2) A notice of opposition must be given—
- (a) in the way specified in the regulations; and
 - (b) within the following times:
 - (i) if the opposition relates to a proposed denomination, within the prescribed time after the application is notified in accordance with section 47:
 - (ii) in any other case, at any time before the PVR is granted.

52 Consideration of application and notices of opposition

- (1) This section applies after the close of the period for giving notice of opposition in relation to a PVR application.
- (2) As soon as practicable after the close of that period, the Commissioner must give the applicant a copy of any notices of opposition received.
- (3) The Commissioner must follow procedures set out in the regulations and—
- (a) give the applicant and all opponents a reasonable opportunity to be heard on the matter; and
 - (b) take the notices of opposition and any submissions into account in considering the PVR application; and
 - (c) otherwise decide and deal with the application in the prescribed manner.

53 Alternative denomination if criteria for denominations not met

- (1) The Commissioner must not reject a PVR application on the grounds that the proposed denomination does not meet the criteria in section 37 unless the Commissioner has—
- (a) notified the applicant of the Commissioner's intention to do so and the reasons for it; and
 - (b) given the applicant the prescribed time (specified in the notice) to submit 1 or more alternative denominations.
- (2) If the applicant submits an alternative denomination, the Commissioner must publicly notify it.

- (3) If the applicant fails to submit an alternative denomination within the prescribed time, the application lapses.
- (4) The Commissioner is not required to give the applicant more than 1 opportunity to submit alternative denominations.

Part 5

Additional provisions that apply to indigenous plant species and non-indigenous plant species of significance

Subpart 1—Preliminary provisions

54 Overview of Part 5

This Part recognises and respects the Crown's obligations under the principles of Te Tiriti o Waitangi/the Treaty of Waitangi through protecting kaitiaki relationships with taonga species and mātauranga Māori in the plant variety rights system, by—

- (a) providing additional procedures that will recognise and protect kaitiaki relationships; and
- (b) providing for a Māori Plant Varieties Committee to administer those procedures, to make determinations about kaitiaki relationships, and to have advisory functions; and
- (c) enabling the nullification or cancellation of PVRs that have adverse effects on kaitiaki relationships.

55 Application of this Part

This Part applies to a PVR application that relates to a plant variety—

- (a) that is derived wholly or partly from—
 - (i) an indigenous plant species; or
 - (ii) a non-indigenous plant species of significance; and
- (b) in circumstances where the material from which the plant variety was derived was obtained from New Zealand.

56 Interpretation of this Part

In this Part, unless the context otherwise requires,—

indigenous plant species means a native plant species that occurs naturally in New Zealand or has arrived in New Zealand without human assistance

non-indigenous plant species of significance means a plant species—

- (a) believed to have been brought to New Zealand before 1769 on waka migrating from other parts of the Pacific region; and
- (b) listed in the regulations as a non-indigenous plant species of significance

party, in relation to a PVR application, means the breeder and any hapū, iwi, individual of Māori descent, or Māori entity that asserts they have a kaitiaki relationship with a plant variety that is the subject of the application.

Subpart 2—Māori Plant Varieties Committee

57 Appointment and membership of Māori Plant Varieties Committee

- (1) The Commissioner must establish a committee called the Māori Plant Varieties Committee.
- (2) The Commissioner may, at any time,—
 - (a) appoint a person as a member of the committee:
 - (b) remove a member from the committee and, if the Commissioner thinks fit, appoint another member in that member's place.
- (3) Before appointing a person under subsection (2), the Commissioner must consult the chief executive of Te Puni Kōkiri.
- (4) A person must not be appointed as a member of the committee unless, in the opinion of the Commissioner, the person is qualified for appointment, having regard to that person's knowledge of mātauranga Māori (Māori traditional knowledge), tikanga Māori (Māori protocol and culture), te ao Māori (the Māori world view), and taonga species.
- (5) In making an appointment, the Commissioner must also consider—
 - (a) whether the proposed member has the mana, standing in the community, skills, knowledge, or experience to participate effectively in the committee and to contribute to carrying out the functions of the committee; and
 - (b) the committee's overall knowledge and experience as a whole.
- (6) The members must appoint one of their number to be the chairperson of the committee.
- (7) A member of the committee may at any time resign office by notice in writing to the Commissioner.
- (8) The Commissioner may not delegate the power of establishment or appointment in this section.

Compare: 2013 No 68 s 225

58 Functions of Māori Plant Varieties Committee

The functions of the Māori Plant Varieties Committee are to—

- (a) issue engagement guidelines and provide advice to applicants for a PVR and kaitiaki:
- (b) consider PVR applications referred to it by the Commissioner and make decisions under this Part:

- (c) advise the Commissioner whether the use or approval of a proposed denomination is likely to be offensive to Māori;
- (d) provide advice to the Commissioner on any information that may be relevant to application of the criteria listed in section 32 for granting a PVR.

59 Advice given under section 58(c) and (d)

The Commissioner must consider, but is not bound by, the advice given by the Māori Plant Varieties Committee under section 58(c) and (d).

Compare: 2013 No 68 ss 226, 227

60 Remuneration of Māori Plant Varieties Committee

- (1) The members of the Māori Plant Varieties Committee are entitled, in accordance with the fees framework, to—
 - (a) remuneration for services as a member at a rate and of a kind determined by the Commissioner; and
 - (b) be reimbursed for actual and reasonable expenses incurred by them in undertaking the functions and duties of the committee.
- (2) In subsection (1), **fees framework** means the framework determined by the Government from time to time for the classification and remuneration of other bodies in which the Crown has an interest.

Subpart 3—Additional procedures for applications to which this Part
applies

61 Commissioner must refer applications to Māori Plant Varieties Committee

The Commissioner must refer to the Māori Plant Varieties Committee all PVR applications to which this Part applies.

62 Māori Plant Varieties Committee's role

- (1) The role of the Māori Plant Varieties Committee in relation to any PVR application that is referred to it is to assess and determine whether that PVR, if granted, will or could have adverse effects on 1 or more kaitiaki relationships with the plant variety that is the subject of the PVR application.
- (2) In carrying out its role under subsection (1), the committee must,—
 - (a) if an iwi, hapū, individual of Māori descent, or Māori entity asserts that they have a kaitiaki relationship with the plant variety that is the subject of the PVR application, assess that relationship (if any) and the effect of granting a PVR on that relationship, in the manner described in section 63;
 - (b) if paragraph (a) does not apply, consider the nature of any kaitiaki relationships that Māori in general have with the plant variety that is

the subject of the application, and the effect on those relationships of granting a PVR for the plant variety in question.

- (3) The matters that the committee may take into account in carrying out its role under subsection (1) also include—
- (a) the effects of any PVR already granted in relation to the plant species that is the subject of the application;
 - (b) the purposes of this Act (explained in section 3);
 - (c) whether any adverse effects on a kaitiaki relationship with the plant species that is the subject of the application can be mitigated by an agreement or undertaking.
- (4) It is also the committee’s role to publicly notify the committee’s rules about hearing and timing requirements for the making and hearing of submissions, responding to information requests from the committee and others, and convening hui.

63 Assessment where kaitiaki relationship asserted

In a case where an iwi, hapū, individual of Māori descent, or Māori entity asserts that they have a kaitiaki relationship with the plant species that is the subject of a PVR application, the Māori Plant Varieties Committee must also consider—

- (a) whether that person, iwi, hapū, or other entity has demonstrated their kaitiaki relationship with the relevant plant variety and associated mātauranga Māori;
- (b) if a kaitiaki relationship has been demonstrated,—
 - (i) the kaitiaki’s assessment of the effect of a grant of the PVR on their relationship; and
 - (ii) any agreement to mitigate adverse effects reached between the breeder and the kaitiaki; and
 - (iii) whether there is any evidence that the parties have not acted in good faith during their engagement (if any).

64 Process to be adopted by Māori Plant Varieties Committee

The Māori Plant Varieties Committee, in carrying out its functions under this subpart,—

- (a) must, where practicable, consider any submissions made, in accordance with the times and procedures set out in the committee’s publicly notified rules, by the applicant, or an iwi, hapū, individual of Māori descent, or Māori entity that asserts they have a kaitiaki relationship with a plant variety, and any organisation that the committee considers represents Māori generally or significant Māori interests (and any evidence given

by an expert on behalf of any of those iwi, hapū, individuals, entities, or organisations):

- (b) may conduct any investigations the committee considers appropriate to carry out its functions (including requesting further information from any party or convening hui):
- (c) must comply with the requirements of natural justice:
- (d) must act as quickly as is practicable in the circumstances:
- (e) must provide written reasons to the parties for every determination that it makes:
- (f) may, except as provided in this Act or any other enactment, regulate its own procedure as it thinks fit.

65 Decision-making by Māori Plant Varieties Committee

- (1) In making decisions under this Part, members of the Māori Plant Varieties Committee must strive to reach consensus.
- (2) However, if the chairperson of the committee is satisfied that a consensus is not possible, the chairperson may authorise the members to make a decision by a simple majority.

66 Factors to be considered when deciding condition to mitigate adverse effects on kaitiaki relationship

In deciding whether a condition to mitigate adverse effects or possible adverse effects on a kaitiaki relationship should be imposed as a formal condition of the grant of a PVR, the Māori Plant Varieties Committee must consider whether an adverse or possible adverse effect of the PVR application, if granted, on the relevant kaitiaki relationship can be adequately mitigated by,—

- (a) in the case of a kaitiaki relationship between a plant variety and Māori in general, a proposed condition of grant set out in an undertaking by the breeder following discussion between the breeder and the committee; or
- (b) a proposed condition of grant agreed by the applicant and the relevant iwi, hapū, individual of Māori descent, or Māori entity, or proposed by a breeder or another party.

67 Decision by Māori Plant Varieties Committee that PVR application should proceed or be declined

Schedule 1

Transitional, savings, and related provisions

s 13

Part 1

Provisions relating to this Act as enacted

Schedule 1 Part 1 heading: inserted, on 29 July 2025, by section 160(1) of the Regulatory Systems (Economic Development) Amendment Act 2025 (2025 No 11).

1 Grants applied for or made before commencement of this clause

- (1) This clause is for the purpose of determining the rights, interests, entitlements, immunities, powers, functions, or duties of any person in relation to a plant variety to which this clause applies.
- (2) This clause applies to a plant variety if—
 - (a) a plant variety right was granted for that variety before the commencement of Part 4 of this Act; or
 - (b) an application for the grant of a plant variety right for that variety was made before the commencement of Part 4 of this Act.
- (3) If this clause applies,—
 - (a) any right, interest, entitlement, immunity, power, function, or duty of any person in relation to the variety must be determined under the old law; and
 - (b) without limiting paragraph (a), the applicable definition of owner is the definition that was in force under the old law.
- (4) In this clause and in clauses 2 and 3, **old law** means the law as in force immediately before the commencement of Part 4 of this Act.

Example

Person A obtained a grant before the commencement of this clause. Person B obtained a grant after the commencement of this clause but applied for that grant before the commencement of this clause. Person A and person B have both obtained grants in respect of wheat varieties (which are not vegetatively propagated). Their rights are determined under the old law. Their rights include the exclusive right to sell reproductive material of the protected variety.

Person A's rights and person B's rights are not infringed if another person propagates the relevant protected variety for non-commercial use, or uses it to breed a new variety (as long as this does not involve repeated use of the protected variety). This is because under the old law exceptions apply that allow this to happen.

Person A and person B do not have rights in respect of varieties that are essentially derived from the protected variety for which they hold a grant, and they do not have any of the other rights set out in this Act other than those that existed under the old law.

- (5) This clause is subject to clause 7 and does not prevent any applications made under that clause.
- (6) This clause is also subject to clauses 8 and 10.
Schedule 1 clause 1(6): amended, on 29 July 2025, by section 160(2) of the Regulatory Systems (Economic Development) Amendment Act 2025 (2025 No 11).

2 Continuation of applications, proceedings, actions, and matters made or commenced before commencement of this clause

- (1) This clause applies to an application, proceeding, action, or other matter that—
 - (a) was made or commenced before the commencement of Part 4 of this Act; or
 - (b) otherwise relates to an application, proceeding, action, or other matter that was made or commenced before the commencement of Part 4 of this Act.
- (2) If this clause applies, the application, proceeding, action, or other matter must be continued, considered, completed, and determined under the old law.
- (3) Without limiting subclause (2), the applications, proceedings, actions, and other matters referred to in subclause (1) include the following:
 - (a) applications under section 5 of the Plant Variety Rights Act 1987 that were made before the commencement of Part 4 of this Act, including a proposal for a denomination to be approved by the Commissioner:
 - (b) objections under section 6 of the Plant Variety Rights Act 1987 that were made in respect of an application made before the commencement of Part 4 of this Act:
 - (c) objections under section 15 of the Plant Variety Rights Act 1987 that were made before the commencement of Part 4 of this Act:
 - (d) requests under section 21 of the Plant Variety Rights Act 1987 that were made before the commencement of Part 4 of this Act:
 - (e) proceedings for the infringement of any right, interest, or entitlement in relation to a variety that were commenced before the commencement of Part 4 of this Act:
 - (f) any appeal under section 23 of the Plant Variety Rights Act 1987 that was commenced before the commencement of Part 4 of this Act:
 - (g) proceedings for an offence under section 37 of the Plant Variety Rights Act 1987 that were commenced before the commencement of Part 4 of this Act.

- (4) Without limiting subclause (2), if this clause applies, the applicable definition of owner is the definition that was in force under the old law.

Examples*Example 1*

A person makes an application for a plant variety grant before the commencement of Part 4 of this Act. There is no statutory requirement for the Commissioner to consider whether a proposed denomination is likely to offend a significant section of the community, including Māori.

Example 2

Person A makes an objection under section 6 of the Plant Variety Rights Act 1987 in relation to an application for a grant made by person B before the commencement of Part 4 of this Act. The Commissioner must determine this question in accordance with the definition of owner in force under the old law. Under that definition, a person can be an owner if the person either bred or discovered the variety (subject to other requirements, such as that the variety must be new and distinct).

Example 3

Person A makes an objection under section 15(2) of the Plant Variety Rights Act 1987 before the commencement of Part 4 of this Act that a grantee (**Person B**) was not the owner of the variety at the time the grant was made (the grant being made before the commencement of Part 4 of this Act). As in example 2, the Commissioner must determine this according to the definition of owner in force under the old law.

-
- (5) This clause is subject to clause 7.

3 Transitional provision relating to Plant Variety Rights (Grantees' Rights) Order 1997

Despite the repeal of section 17 of the Plant Variety Rights Act 1987 by section 158 of this Act, the Plant Variety Rights (Grantees' Rights) Order 1997, as in force immediately before the commencement of this clause, continues in force for the purposes of—

- (a) determining any rights, interests, entitlements, immunities, or duties of any person to whom clause 1 applies; and
- (b) any application, proceeding, action, or other matter to which clause 2 applies.

Example

Person A obtained a grant before the commencement of this clause, and person B obtained a grant after the commencement of this clause but applied for that grant before the commencement of this clause. Person A's rights exist in vegetatively propagated begonias, and person B's rights exist in vegetatively propagated fruit trees.

Person A's and person B's rights are determined under the old law. The exclusive rights include, in this case, both the right to sell reproductive material and propagate the relevant variety for the commercial production of fruit, flowers, and

other products (as in both cases the plants fall into the category of vegetatively propagated fruit-producing plants, vegetatively propagated ornamental plants, or vegetatively propagated vegetable-producing plants).

Person A and person B do not have rights in respect of varieties that are essentially derived from the protected variety and they do not have any of the other rights set out in this Act other than those that existed under the old law.

4 Essentially derived varieties

A PVR granted under this Act in respect of a plant variety (A) does not confer any rights on the holder of the right in respect of an essentially derived variety (A1) if A1 was in existence before the commencement of this clause.

5 Plant variety rights register

- (1) The register kept under section 14(3) of the Plant Variety Rights Act 1987 continues to be kept as the register under section 134 of this Act.
- (2) The Commissioner must continue to record in the register, kept under section 134 of this Act, all the matters required to be kept under section 14(3) of the Plant Variety Rights Act 1987 and the Plant Variety Rights Regulations 1988.
- (3) Any additional information requested by the Commissioner may be recorded on the register kept under section 134 of this Act.

6 Existing appointments preserved

- (1) The person holding the position of Commissioner of Plant Variety Rights immediately before the commencement of this clause continues to hold office on and after the commencement of this clause as the Commissioner appointed under section 120(1) of this Act.
- (2) Any person holding the position of Assistant Commissioner of Plant Variety Rights immediately before the commencement of this clause continues to hold office on and after the commencement of this clause as an Assistant Commissioner appointed under section 120(2) of this Act.

7 Compulsory licences

- (1) An application for a compulsory licence under Part 7 of this Act must be dealt with under this Act.
- (2) An application for a compulsory licence under the Plant Variety Rights Act 1987 made before the commencement of Part 7 of this Act must be dealt with under the Plant Variety Rights Act 1987.
- (3) An application for a compulsory licence for a plant variety for which a plant variety right was granted under the Plant Variety Rights Act 1987 (being an application that is made on or after the commencement of Part 7 of this Act) must be dealt with under this Act.

8 Renewal fees

For a plant variety right referred to in clause 1(2)(a), the next annual grant fee (after this clause comes into force) must be paid when due in accordance with the Plant Variety Rights Act 1987, but after that due date renewal fees become due in accordance with this Act.

9 Part 5 of this Act does not apply to a plant variety right granted under Plant Variety Rights Act 1987

Subpart 3 of Part 5 of this Act (which among other matters allows the Māori Plant Varieties Committee to consider and determine applications for cancellation or nullification of PVRs) does not apply in respect of—

- (a) a plant variety right granted under the Plant Variety Rights Act 1987; or
- (b) a PVR application made under Part 4 before subpart 3 of Part 5 comes into force.

Part 2**Provisions relating to Regulatory Systems (Economic Development)
Amendment Act 2025**

Schedule 1 Part 2: inserted, on 29 July 2025, by section 160(3)(a) of the Regulatory Systems (Economic Development) Amendment Act 2025 (2025 No 11).

10 Renewal fees for certain rights granted after commencement

- (1) This clause applies to a plant variety if—
 - (a) an application for the grant of a plant variety right for that variety was made before the commencement of Part 4 of this Act; and
 - (b) the application was granted after the commencement of Part 4 of this Act.
- (2) For a plant variety to which this clause applies, any renewal fee payable after this clause comes into force in respect of a plant variety right for that variety must be paid in accordance with this Act.
- (3) However, subclause (2) does not apply in respect of a renewal fee payable in the calendar year in which this clause comes into force, unless the anniversary of the date on which the plant variety right was granted for that year is after the date on which this clause comes into force.

Schedule 1 clause 10: inserted, on 29 July 2025, by section 160(3)(a) of the Regulatory Systems (Economic Development) Amendment Act 2025 (2025 No 11).
